

## North Parade in more detail

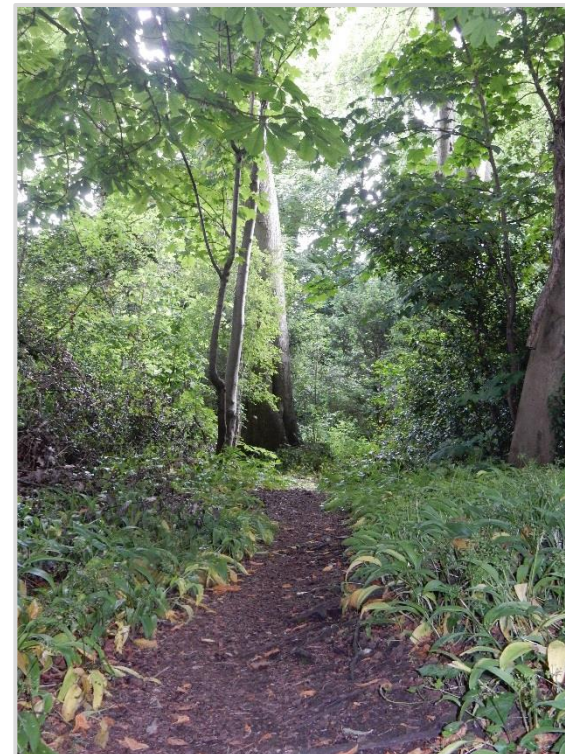

What we've done; What we're doing – and the Next steps for the park

### What we've done

- The Rangers have planted a fragrant climbing rose in the (previously) redundant space at the bottom of the steps leading onto Welshmill Road
- With lots of volunteer help, we've been thinning and coppicing the woodland areas. An ongoing job – but one that had lapsed a little in the past, so gradually getting on top of things has been an important first step
- The main bed is now a real feature for North Parade and for the town

### What we're doing

- The formal bed on North Parade takes up a lot of time (seasonal planting; watering; TLC)
- We're currently putting together a schedule of tree works for the autumn and spring

### Next steps

What	When	Budget
Tree labels for select trees	Expected timeframe Winter 2018	£100
Tree works	Winter 2018 into spring 2019	£1,000
A metre-by-metre condition survey and photographic record of the retaining wall	Winter 2018	N/A
Look into the possibility of adding Christmas lights along North Parade	Spring 2019 for Christmas 2019	£To be confirmed
