

What we're working on, at the moment...

Share Shop

SHARE

A library of Things – we have been in the Guardian, Radio 4, Positive News and RT recently and as a result have been approached by over 30 other areas to set up similar schemes. We're developing a toolkit that we can share, and applying for funding to ensure the long term future of the project. We are also launching a sharing festival in October. The shop has more than 500 items and a new inventory where you can peruse new and 'most popular' items: <http://sharefrome.org/inventory/>

Markets in Frome

The Town Centre Community Coordinator continues to build constructive relationships with retail sector, planning new events to increase footfall and looking at enhancing weekly market offering. Currently Mark is working towards a Christmas event and with Visit Somerset on promoting the town. [Town Centre Community Coordinator](#) Minute number 2014/46 03/09/2014

Business Waste

Frome Town Council is conducting audits of local business waste and will be meeting in September to look at ways to streamline waste collections and maximise re-use and recycling. Any interested businesses can fill in a short survey at:
<https://www.surveymonkey.com/r/QPKM5VG>

School Energy Programme

We will be launching our school energy programme in September helping local schools to cut costs and carbon. The programme has been working with Selwood

Academy, Frome College and St John's Primary School to empower staff and students to look at school energy usage, identify ways to reduce consumption and explore renewable energy options. [Energy and Recycling Officer](#)

Community Database

Following discussion with Cath Puddick, Toby Elliot and Peter Macfadyen, we are about to commission a local software engineer to produce a Town Digital

Hub that will incorporate a community database. Kate Hellard will provide a more detailed update for the next meeting.
