

Agenda item 7

For information: Health & Safety update

Author: Chris Stringer, Environment Manager

Accidents, Incidents & Near-misses

There is nothing to report since the last (verbal) update at the Council Matters meeting on 7 June. However, please note that the investigation into an accident at the Old Showfield last September (2016) is still ongoing. The investigation is being led by Zurich, the Council's insurance company.

Training

Virtually all staff have completed 'Manual Handling' training and an introduction to 'Risk Assessments' during August.

Additionally, the Rangers; the Town Hall Steward and the Environment Manager have all successfully completed 'COSHH' training and 'Working at Height' training.

The Rangers are also completing a 'good practice' review of their work at the moment.
