DRAFT

Planning Committee Minutes 27- 01 - 2021

462	2019/0846/FUL	Former Factory Shop 9-12 Palmer Street Frome Somerset BA11 1DS	Frome Market	Mr A Pang	Alterations and change of use of former clinic to A3/A4, office and 4 flats and part former retail to 5 flats and 2 offices (Revised scheme received 22/12/2020)	James U'Dell	Full Application	Objection - whilst we support the owner in trying to do something with these premises, the noise assessment is still not sufficient to ensure that the current operation at 23 Bath Street is not jeopardised. The noise levels must be taken at times when the venue is at close to capacity and from all 4 floors, and take into account the noise from the extension to Palmer Street Bottle. There are also now patio doors to one of the flats. All of the rear of the property should be a commercial use to further lessen the impacts of noise. There is also concern about the fact that it appears the entrance to some of the flats is through the Nursery play area causing safeguarding issues. The marketing report sets out that the premises were marketed as a whole unit, then separated in to two units, it does not appear that the smaller unit has been marketed separately. There is no provision for cycle storage and the bin storage is not well located.

Planning Committee Minutes 27- 01 - 2021

473	2021/0050/FUL	Land At 378206 147347 Adderwell Road Frome Somerset	Frome Keyford	Persimmon Homes Ltd	Residential development comprising 25 dwellings, new vehicular access, landscaping, sustainable urban drainage and other associated infrastructure works	James U'Dell	Full Application	Objection - We welcome the provision of 30% affordable housing but would prefer to see it integrated throughout the site. The permeability of the site must be improved to make the access path through to Caxton Road and Primrose Court suitable for cyclists as well. The building for life document makes reference to Trowbridge rather than Frome so is inaccurate. The energy efficiency statement is not sufficient and we would expect to see much higher standards of energy efficiency in line with the Climate Emergency declared by all three tiers of Council. We agree with the Civic Society comments regarding the attenuation pond and would like to see an alternative provided. We would also ask that the layout is amended to provide parking courts enabling the road/streets to be used for play in the absence of any on-site open space. As the site will link up with the footpath leading to the river, we would ask for a A106 contribution to the proposed footbridge across to/from Edmund Park.
