

Agenda item 5

For Information & Discussion – Green & Healthy Frome Evaluation

Author: Matt Mellen, Climate Action Lead

Over the last five years, the Green & Healthy Frome programme has been in operation. It was set up to drive lasting change in our town and help residents to be healthier, happier, better off and more connected to the natural world. Funded by the National Lottery's Climate Action Fund, this innovative project brought together: Edventure Frome, Frome Medical Practice and Frome Town Council to promote greener and healthier living in our town. The project came to a close this March and has now been thoroughly evaluated by the team at The Conscious Project. They will present their findings at the meeting and help to lead a discussion on what was achieved and the project's legacy.

The Evaluation Report Summary can be viewed at:
